

ko 5. May, 2008, Hörsaal 12, Theoretische Biologie, Invalidenstr. 43[#]

Minisymposium

anlässlich der Besetzung der W3-Professur Strukturbiologie / Biochemie

„Structural analysis in modern biochemical research“

- 13.00-13.40 Wolf-Dieter Schubert (Braunschweig):
"Bacterial Infections: Structural and Functional Analysis"
- 13.40-14.20 Günter Schwarz (Köln):
"Biosynthesis, Structure and Function of Pterin-Cofactors: From Biochemistry to Therapy"
- 14.20-15.00 Eva Wolf (Dortmund):
"Structural and biochemical analysis of circadian clock proteins"
- 15.00 – 15.20 Kaffeepause
- 15.20-16.00 Lars Oliver Essen (Marburg):
"Light triggered signal transduction and catalysis: Two sides of one coin ?"
- 16.00-16.40 Markus Rudolf (Basel):
„OMP decarboxylase: Inhibitor binding and possible catalytic mechanism of an enigmatic enzyme"
- 16.40 – 17.00 Kaffeepause
- 17.00 – 17.40 Holger Dobbek (Bayreuth):
"Biological metal clusters: function and assembly".
- 17.40 – 18.20 Doreen Dobritzsch (Stockholm):
"Reductive pyrimidine degradation: Structures and mechanisms".
- 19.30 – 21.30 Nachsitzung im GOOD TIME, Chausseestr.
