

Workshop

Molecular and Cellular Biophysics and Catalysis

19. November 2009, Raum 523, Chausseestr. 117*

14.30 **Kirstin Wagner**, Odense

„Membrane structure and the activity of lipid-modifying enzymes“.

15.10 **Eglof Ritter**, Berlin

"Spectroscopical investigation of molecular reaction mechanisms"

15.50 **Andreas Möglich**, Chicago

"Structure, Function and Design of Molecular Light Switches".

16.30 Coffee Break

16.50 **Holger Kress**, Yale

„Spatiotemporal control of cellular microenvironments with photonics“

17.30 **Harald Janovjak**, Berkeley

„Controlling membrane protein structure and function:
with a light saber – and force powers“

End: 18.10

* For the location see: <http://www2.hu-berlin.de/biologie/microbio/>

responsible: P. Hegemann HU-Berlin
